

## New Medical Therapeutic Yoga Program in America: The First of its Kind in Education and Distance Learning

As the nation's only provider of medical therapeutic yoga education and certification exclusively for medical professionals, PYT graduates are leaders in the integration of eastern and western medical philosophy and practice.

PYT knows our students are busy and we are doing our part to offer a program that fits into their lives. The new distance learning option for certification as a Professional Yoga Therapist responds to the growing need for alternative learning options that work for real people in the real world.

*Some benefits of the new distance learning curriculum are:*

- *Fewer days away from home and work*
- *Less cost incurred for travel*
- *Real-time connection with faculty on interactive webinars*

### Why PYT?

*PYT graduates are prepared to be:*

- *Leaders in the field of integrative rehabilitation*
- *Master clinicians in medical therapeutic yoga*
- *Supervisors of integrative medical therapy programs*

Want to discover if certification as a Professional Yoga Therapist is right for you? Explore who we are and what we do at [www.professionalyogatherapy.org](http://www.professionalyogatherapy.org). Today is the day to join the movement towards holistic, integrative therapy that can change your patients' lives.
